With the ICM-1500 series, which has been developed and manufactured by Innovative Card Systems, cards can be fixed on to individual carriers simply.

High Productivity. This powerful and productive system processes up to 2.000 cards per hour.

Folding Technologies. Combined with one of the most common card folders, the ICM-1500 provides a variety of different folding technologies (C-fold, Z-Fold and half-fold) and additional inserts in different formats.

Availability. The robust engineering and design stands for 24/7 availability and low maintenance costs.

Price/Performance. Looking at price, performance, functionality and flexibility, the ICM-1500 offers an outstanding return of investment and capital spending protection.

We start, where others finish ...

Technical Specifications

Basic Configuration:

- Card Input module for 500 ISO cards
- Card Reading Module
Magnetic Stripe Reading LoCo and HiCo
- Carrier Input and Alignment station
- Labeling station
- Affixing station
- **Starting performance from 1000cph - 2000 cph**
- A4 or US-Letter, 80-120gr.

Folding Options:

- Z-fold
- C-fold
- Half-fold

Enveloping Options:

- DL size
- C5 size

Additional insert modules:

- NEOPOST Maximizer with Z and C fold
- several Insert feeders
- envelope insert feeders
- Barcode Selectable Inserts
- other folding and inserting options on request

Available Options:

- contactless smart card reading
- contact smart card reading
- 1D barcode reading
- 2D / Datamatrix barcode reading
- Camera reading
- Card rotation by 90° degrees
- additional paper buffers
