Continuous innovation -
your success

always a STEP ahead...

OUR HISTORY

We start,
where others finish ...

Innovative Card Systems

Innovative Card Systems is one of the most innovative manufacturer of individual card personalization and card mailing solutions worldwide. Due to the unique and modular design of our products we are to offer scalable solutions from 1.000 to 7.000 cards per hour.

About us

Innovative Card Systems is a privately owned company, which was founded in 2005. The company was setup by a young, highly motivated management team with more than 40 years experience in the field of plastic card personalization and card mailing systems.

Solutions at Innovative Card Systems are realized by using a maximum standard of quality and security. The company is consistently working on research and new investments which will improve the quality and the security of our customers. Our R&D department is permanently developing our product range and innovating in concordance with our customers requirements.

Our name is our mission: "Continuous innovation" for our customers success. We have a core competency specifically in GSM/SIM card personalization and mid-range mailing systems.

The modular concept of our products reduces significantly the personalization costs for our customers and improves our machine availability to a maximum, never seen in this market before.
